B = CR 532 to SR 528	X	X			
C = SR 528 to SR 435 (Kirkman Rd)			X		X
D = SR 435 (Kirkman Rd) to SR 434			X	X	
E = SR 434 to SR 417/SR 429			X		X
F = SR 417/429 to SR 472			X		X

Summary of National Environmental Protection Act (NEPA) Documentation

- Environmental Assessment (EA) - Document that is prepared to determine the significance of impacts of a transportation project. If there are no significant impacts, a FONSI is prepared. If there are significant impacts, an EIS is prepared.
- Finding Of No Significant Impact (FONSI) - A FONSI is issued when the environmental analysis and interagency review during the EA process find a project to have no significant impacts on the quality of the environment.
- Final Environmental Impact Statement (FEIS) - NEPA requires Federal agencies to prepare EIS's for major Federal actions that significantly affect the quality of the human environment. An EIS is a full disclosure document that details the process through which a transportation project was developed, includes consideration of a range of reasonable alternatives, analyzes the potential impacts resulting from the alternatives, and demonstrates compliance with other applicable environmental laws and executive orders.
- Record of Decision (ROD) - The ROD is the final step in the EIS process and identifies the selected alternative, presents the basis for the decision, identifies all the alternatives considered, specifies the "environmentally preferable alternative," and provides information on the adopted means to avoid, minimize and compensate for environmental impacts.
